

Product Requirements Document (PRD)

Portfolio Website – Shib Chandan Mistry

1. Product Overview

1.1 Product Name

Shib Chandan Portfolio – Systems & Full Stack Engineering Showcase

1.2 Vision

To build a high-impact, technically compelling portfolio website that showcases advanced systems, security, and AI engineering capabilities in a way that is quickly understandable by recruiters while still providing deep technical insights for senior engineers.

1.3 Primary Goal

- Secure placements in top product-based companies
 - Demonstrate strong full-stack + systems engineering capability
-

2. Target Users

2.1 Primary Users

- Recruiters (non-technical, quick scanning)
- Hiring Managers (semi-technical)
- Senior Engineers (deep technical evaluation)

2.2 User Behavior

- Spend 10–30 seconds initially
 - Look for:
 - Clear role identity
 - Strong projects
 - Real-world impact
 - Clean UI
-

3. Positioning Strategy

3.1 Role Branding

“Full Stack Developer with Systems & AI Engineering Expertise”

3.2 Differentiation

- Most portfolios → CRUD apps
 - Your portfolio →
 - Network security systems
 - Distributed systems
 - AI infrastructure
 - Offline-first architectures
-

4. Core Features

4.1 Hero Section

- Name: Shib Chandan Mistry
 - Tagline (auto-generated):
“Building High-Performance Systems, Secure Architectures & AI-Driven Platforms”
 - CTA Buttons:
 - View Projects
 - Download Resume
-

4.2 About Section

- Short introduction
- Key strengths:
 - Full Stack Development
 - Systems Programming (C++)
 - AI/Vector Systems

- Network Security
-

4.3 Projects Section (MOST IMPORTANT)

Each project must include:

Display Layer (Simple)

- Project Name
- 1-line simplified description
- Tech stack
- Buttons:
 - GitHub
 - Demo (video if local)

Deep Dive Layer (Expandable)

- Problem Statement
 - Architecture Overview
 - Key Features
 - Technical Challenges
 - Learnings
-

4.4 Project Categorization

Category 1: Systems & Security

- DPI Firewall
- ShadowPay

Category 2: AI / Infrastructure

- PragnaAI

Category 3: Full Stack Platform

- Campus Knowledge Hub

4.5 Demo Strategy (Critical)

Since projects are local:

- Use:
 - Demo videos (YouTube/Loom)
 - Screenshots
 - Architecture diagrams (future)

4.6 Skills Section

Grouped format:

- Languages: C++, JavaScript
- Frontend: React
- Backend: Node.js, Express
- Database: MongoDB
- Systems: Networking, Multithreading
- AI: Vector DB, RAG Systems

4.7 Contact Section

- Email
- GitHub
- LinkedIn

5. UI/UX Design

5.1 Design Theme

- Dark hacker + modern animated hybrid
- Clean but technical

5.2 UI Characteristics

- Dark background (#0f172a type)
- Neon accents (blue/purple/green)
- Subtle animations (NOT heavy)

5.3 Layout Flow

1. Hero
 2. About
 3. Projects (highlight section)
 4. Skills
 5. Contact
-

5.4 Interaction Design

- Smooth scrolling
 - Hover animations on project cards
 - Expandable project details
 - Minimal transitions (performance-focused)
-

6. Tech Architecture

6.1 Frontend

- Next.js
- Tailwind CSS

6.2 Deployment

- Vercel

6.3 Data Handling

- Static JSON / local data (initially)
- Future: CMS integration

7. Performance Requirements

- Page load < 2 seconds
 - Fully responsive (mobile + desktop)
 - Lighthouse score > 90
-

8. Development Roadmap

Day 1

- Setup project
- Build layout (Hero, Navbar)

Day 2

- Projects section
- Add all project data

Day 3

- Styling + animations
 - Contact section
 - Deploy
-

9. Future Enhancements

- Blog (technical writeups)
 - Architecture diagrams per project
 - GitHub API integration
 - Admin dashboard
 - Analytics tracking
-

10. Risks & Mitigation

Risk 1

Projects too complex → not understood

Solution

- Add simplified explanation layer
-

Risk 2

Local projects lack demo

Solution

- Use video demonstrations
-

11. Success Metrics

- Recruiter engagement (time on site)
 - Interview calls received
 - GitHub traffic increase
-

12. Final Strategy Insight

This portfolio is not a “student portfolio.”

It should feel like:

- A systems engineer’s showcase
- A production-grade engineering profile

Focus on:

- Clarity + depth
 - Not just aesthetics
-
