TECHNICAL SKILLS

Languages: C, C++, Java, JavaScript (ES6+), SQL
Web Technologies: HTML5, CSS3, React.js, Node.js, Express.js, Tailwind CSS
Databases & Cloud: MongoDB, Cloudflare R2, Database Management Systems (DBMS)
Core Frameworks: Multithreading, Windows CNG APIs, Cryptographic Gates, REST APIs, Git/GitHub

PROJECTS

ShadowPay | *Node.js, Native C++ Cryptography, Windows CNG, React, Mesh Networks* May 2026 – Jun 2026

🔗 [Source Code](#)

- Engineered a hybrid offline UPI gateway utilizing a custom Node.js runtime integrated with a native C++ cryptographic engine.
- Implemented payload encryption using Windows CNG APIs for secure RSA-2048 digital signing and AES-256-GCM data sealing.
- Developed a peer-to-peer gossip simulation and dynamic network tracking canvas visualization dashboard using React.
- Designed strict atomic idempotency gates in MongoDB to mathematically eliminate double-spending risks and replay attacks.

Campus Knowledge Hub | *Full-Stack MERN, Cloudflare R2, Multi-LLM Integrations, RBAC* Jan 2026 – Apr 2026

🔗 [Source Code](#)

- Architected a scalable MERN platform featuring an intuitive academic file hierarchy system for structured resource delivery.
- Built optimized storage architectures using Cloudflare R2 object storage backed by reliable automated local disk fallbacks.
- Implemented granular Role-Based Access Control (RBAC) via secure JWT configurations to enforce tiered subscription levels.
- Integrated multi-LLM AI models (OpenAI, Gemini, Anthropic) to deliver real-time, context-aware document text analysis.

Packet Analyzer / DPI Engine | *C++, Multithreading, MERN Dashboard, PCAP Processing* Sep 2025 – Dec 2025

🔗 [Source Code](#)

- Developed a high-speed Deep Packet Inspection (DPI) engine in C++ tailored for highly optimized offline PCAP analysis.
- Applied multithreaded workflows to run five-tuple stream isolation, TLS SNI/HTTP host extraction, and fast DNS logging.
- Programmed an extensible rule-based firewall simulation filter protecting against specified IP, domain, and protocol anomalies.
- Formatted stream data into clean JSON schemas linked directly to a responsive MERN dashboard for data visualization.

EDUCATION

Motilal Nehru National Institute of Technology (MNNIT) Allahabad, India

Bachelor of Technology in Computer Science and Engineering

2022 – 2026

CGPA: 6.78

Bidhan Nagar Government High School

West Bengal Council of Higher Secondary Education (Class XII)

2022

Percentage: 79.2%

RELEVANT COURSEWORK

Data Structures & Algorithms (DSA), Object-Oriented Programming (OOPs), Operating Systems, Computer Networks, DBMS

CODING PROFILES & ACHIEVEMENTS

LeetCode Rating: **1703** | 923+ Problems Successfully Solved
Codeforces 138+ Hard Competitive Programming Algorithm Submissions
Coding Ninjas Level 8 | 240+ DSA Solved | **4× College Leaderboard Topper**
